

INSTALLATION GUIDE

Filter Location:

Under hood firewall passenger side

Tools Required:

#2 Phillips screwdriver

Procedure:

- Open hood
- Remove two screws from plastic filter housing face grill and remove the grill

- Reach deep into filter housing and pull filter towards front of vehicle and then up for final removal of used filter

- Making certain that air flow arrow of new filter is pointing towards truck cab, install new micronAir® cabin air filter by placing filter in housing slot, pushing towards firewall until it fits snugly in filter receptacle
- Replace plastic filter housing grill and secure with two screws
- Close hood
