

INSTALLATION GUIDE

Filter Location:

Inside cab under passenger side dashboard

Tools Required:

None

Procedure:

- ❑ Locate filter access panel under dash on passenger side

- ❑ Turn knurled knob counterclockwise by hand to release face plate, pull faceplate outwards toward seat
- ❑ Pull filter frame straight out from housing using tabs located on end of filter frame
- ❑ Using tabs, gently pry filter frame open only far enough to remove existing filter element

- ❑ Remove used filter element
- ❑ Install new micronAir® cabin air filter into frame, making certain air flow arrow on element is pointing the same direction as air flow arrow on filter frame
- ❑ Ensure gaskets are seated against ends of filter frame, snap filter frame closed
- ❑ Insert filter frame into housing slot, making certain tabs on filter frame are outward toward seat
- ❑ Make certain that air flow arrow is pointing towards passenger door

- ❑ Replace filter housing face plate and turn knurled knob clockwise to secure
